General Information.

THE NEW ORGANIZATION.

By an Act of Incorporation passed by the Legislature of Pennsylvania, March 4, 1865, the Colleges of Washington and Jefferson were united in one Institution, with the combined name of both. This measure it was hoped would be gratifying to the Alumni and friends of both Colleges—would promote the best interests of both, and would be of important advantage to the cause of sound learning. As intimated in the preamble to the charter, it had long been felt that incorporated seminaries of learning had been needlessly and injuriously multiplied in this State and in adjoining States, and that there was an enlarged and growing demand, not for more Colleges, but for better ones. Moreover, the close proximity of the two Colleges induced an unhealthy rivalry between them, which was found to impede the advance of education, to distract liberality, and "to discourage the friends and patrons of both those Colleges in their efforts to sustain and endow them." These circumstances and considerations prepared the way; and when at length the Rev. CHARLES C. BEATTY, D. D. LL. D., of Steubenville, Ohio, made a munificent donation of $50,000, conditioned upon the union of these two Colleges, it was resolved that the measure should no longer be delayed. The Alumni urged it. The Trustees agreed to it and made the preliminary arrangements. The necessary legislation was secured, and a new organization of the Board of Trustees and of the Board of Instruction was effected without any loss of time. Under this arrangement the united College has been conducted for the last four years until the present time. The Senior, Junior, and Sophomore Classes of the Academical Department have been instructed at Canonsburgh, and the Freshman Class of the same, together with the Scientific and the Preparatory Departments, at Washington.

But experience developed the necessity for further reorganization. The machinery was too complicated and expensive. Public confidence was withheld, and with it also additional and necessary endowment. Patronage was rapidly turning from our own to other Colleges. In diminished rolls,

in the general impatience of the public mind, in the repeated and unmistakeable utterances of the Alumni, and in practical and increasing difficulties of administration under the dual plan, the Trustees themselves were at last constrained to give heed to the imperative demand, on all hands, for *consolidation at one place*. Accordingly an amendment to the charter, carefully prepared by a committee embracing the best experience and legal talent of the Board, was approved almost unanimously by the Trustees, enacted into a law by the Legislature, and then accepted with like unanimity and carried into effect by the Board. By this arrangement the Trustees were directed, by a vote of not less than two-thirds of the members present at a meeting called for that purpose, to fix the location of the consolidated College "at Canonsburgh, Washington, or some other place within this Commonwealth." Should this not be done within sixty days after the passage of the Act, then five commissioners were to be chosen by a two-thirds vote of the Board to make the decision—four of whom must agree. Provision was also made for the establishment of an Academy, Normal School, or other institution of lower grade than a College, at the place losing the College, or at each of them should a new place be chosen.

Under this authority from the State, the Board met at Pittsburgh, April 20th, 1869, twenty-seven members being present and three absent, and one place being vacant. After receiving offers from the different competing localities, and hearing arguments in their favor, the balloting was commenced with solemn prayer, and on the eighth ballot two-thirds of the votes were cast for Washington—and thus the question was finally settled. As a condition of location at that place, an offer of $50,000 to the Endowment Fund had been made by its citizens and friends. At a subsequent meeting, on the 9th day of June, the Board made provision for carrying the consolidation into effect at Washington, from and after the opening of the next collegiate year—September 22d, 1869. The Chairs of Greek, Latin, Natural Science, Mechanics and Civil Engineering, and Mathematics will be filled respectively by Professors Linn, Woods, Jones, Vose, and Simonton. It is hoped that the way will be clear, at the meeting on the 4th of August, to elect a President, and also a Professor of English Literature and Political Economy.

And now the Board address themselves to the work of making the College of Washington and Jefferson a first class Institution in all its appointments—in its Endowments, Professors, Buildings, Apparatus, Libraries, and in the careful training it shall afford in Learning, good Citizenship, and Religion.

They rely confidently upon the Alumni of the two Colleges, which are united in this; and they appeal to the men of intelligence, wealth, and public spirit in all this favored region to furnish promptly and generously the moral and the material aid which shall enable them to accomplish their aim.

DEPARTMENTS.

Three Departments are in operation: the Preparatory, the Academical, and the Scientific.

The course in the Preparatory Department is designed to fit for the Academical or Scientific, and is completed in two years.

The course in the Academical is completed in four years, and corresponds with the undergraduate course in the oldest American Colleges.

In the Scientific Depatrment special attention is given to the English, French, and German Languages and Literature, Mixed Mathematics, including Civil Engineering, and the Natural Sciences in their application to the Arts. The English Language is studied in the same way, and with the same thoroughness, as the Latin and Greek in the undergraduate course. The course is completed in three years. Students who are not candidates for a degree can enter any class in any selected study of the course for which they are found prepared.

COLLEGE YEAR.

The College Year includes three Terms of study and three vacations.

The public Commencement is held on the first Thursday of August.

The First Term begins seven weeks from the day before Commencement, and continues thirteen weeks.

The Second Term begins the first Wednesday of January, and continues thirteen weeks.

The Third Term begins the last Wednesday of April, and continues fourteen weeks to the Commencement.

It is of great importance that students attend from the very beginning of the Term. All arrangements for Board, Room, &c., and the settlement of College Bills, should be attended to in advance. College exercises will begin promptly on the day appointed, and any time lost will affect the standing of the student.

Absence during Term time without special leave is prohibited.

ADMISSION.

Candidates for admission to the College must, first of all, exhibit satisfactory testimonials of good moral character. If they have been members of another College, they will be expected also to present a certificate of dismission in good standing.

Candidates for admission to any class will be examined in ALL the previous studies as laid down in this course, and must be PROFICIENT in them or their fair equivalent.

No person can be admitted to the Senior Class after the beginning of the College Year.

Candidates for admission to the First Year Scientific should be versed in all the branches required for Freshmen, except Greek.

EXAMINATIONS.

Public examinations are held at the close of each Term, upon all the studies of the Term; at the close of the year, upon all the studies of the year; and the final examination of the Senior Class is five weeks before Commencement.

DEGREES.

The degree of Bachelor of Arts is conferred upon students who complete the Academical Course and pass the examinations in the same.

The degree of Bachelor of Science is conferred upon students who complete the Scientific Course and pass the examinations in the same.

The degree of Master of Arts or Master in Science is conferred in course upon graduates of three years' standing, who make application for it.

Certificates of Proficiency may be granted to students who do not graduate, stating the time they have been in connection with the College, the studies pursued, and the progress made.

RELIGIOUS INSTRUCTION AND SERVICES.

The exercises of each day are opened with prayer in the College Chapel, and all the students are required to be present.

All of the students are required to attend public worship on the Sabbath at such places as they may choose, or their parents or guardians may direct.

A course of Biblical and Religious instruction is arranged in connection with the studies of all the Departments; so that, throughout the whole course, the principles and duties of the Christian religion are brought continually before the minds of the students, while no effort is made to teach the peculiarities of any sect.

DISCIPLINE.

A record is kept by the Faculty, in which are entered from time to time the grade of scholarship of each student, his absences from the exercises of the Institution, and such other facts as are worthy of notice with respect to his general deportment. From this record a report will be made out at the end of each session, and sent to the parent or guardian of each student. In case of deficiency in scholarship, negligence in study, irregularity in attendance upon the exercises of the College, or other improper conduct, the student will be privately admonished, and the parent or guardian will be informed of the fact.

Parents and guardians will thus be accurately informed with regard to their sons and wards in this College, and their co-operation with the Faculty in a mild system of discipline be secured.

When it is ascertained that a student is getting no good and doing no good at College, even though he be guilty of no outbreak against the authorities, his parent or guardian will be addressed upon the subject, and requested to remove him from the Institution.

EXPENSES.

The principal necessary expenses per year, not including vacations, are as follows:

Tuition, $8 00 per Term,	$ 24 00	$ 24 00
Boarding from $2 75 to $4 50 per week, making per year of 40 weeks,	110 00	180 00
Room and Attendance from $9 00 to $20 00 per Term,	27 00	60 00
Fuel,	6 00	10 00
Light,	3 00	4 00
Washing,	9 00	10 00
Contingent Fee $4 50 per Term,	13 50	13 50
Text Books estimated $5 00 to $6 00 per Term,	15 00	18 00
	$207 50	$319 50

Extra Charges.

Matriculation Fee, from $2 00 to $8 00, according to the class entered.

Twenty-five cents are charged for a copy of the Laws of the College, and students of Natural Science pay an extra fee of $1 00 per Term for the use of the Apparatus and Chemical Preparations.

Graduation fee for the first Degree, $6 00; for the second, $5 00.

Reductions.

Students on Scholarships receive their Tuition free, according to the terms of the certificate. The certificate must, however, be presented to the Treasurer at the beginning of each Term for the proper endorsement and entry.

The expenses for Room Rent, Fuel and Light, are, of course, reduced one-half when two students occupy the same room.

With these deductions, the necessary expenses of a student need not average more than $100 00 to $150 00 per Term, or $300 to $450 00 per year.

All fees are to be paid in advance, and no student is enrolled until he has presented the Treasurer's receipt for the same.

SOCIETIES.

The Philo and Franklin Literary Societies which have been carried on in connection with the Department at Canonsburgh, and the Union and Washington Societies at Washington, still retain their organizations. It is, however, expected that a satisfactory arrangement will soon be made with reference to the future of these Societies.

Two Students' Christian Associations are in vigorous operation in the College.

Secret Fraternities, of all kinds, are discountenanced by the Board of Trustees and by the Faculty.
